## Marsden B-200:

A truly versatile bench and parcel weighing scale

The Marsden B-200 is an inexpensive and robust digital bench weighing scale with a stainless steel wipe down platter.

### Versatile and easy to use

The Marsden B-200 is a versatile bench and parcel weighing scale that is suitable for use in all warehouses and factories.

Even though this is an inexpensive scale it is still built to the same high quality as other bench scales in the Marsden range.

With a choice of capacities ranging from 15kg to 300kg, and an accuracy of 5g through to 100g, there really is a scale suitable for everybody.

To get started with the scale all you need to do is switch the scale on, place an item on the splash-proof stainless steel platter and the indicator shows the weight instantly and accurately.

Stainless steel top plate

Bracket supplied for wall mounting

Lightweight and portable

## Other functions

Other functions of this scale include a parts counting function – meaning you can count the number of items placed on the platter based on their weight – great when you need to count out multiple items.

The power down function saves power when the scale is running from the battery, although an AC adaptor is included in the price.

The stainless steel top plate means that the scale can be wiped down with a damp cloth without causing any damage to the inner mechanisms of the scale.

Capacity : 30kg x 10g

COUNT NET GROSS UNIT ON OFF TARE

B-200

Easy to use function keys

## Service and maintenance

The B-200 is backed by a full one-year warranty. For extra peace of mind an additional service contract can be purchased to keep the scale reliable and accurate.

## Product specification
