## Marsden PT-450: The ultimate waterproof pallet truck scale. Hardy, accurate and robust

If you need a convenient weighing solution in a harsh environment, or where your scale needs to be washed down regularly to keep it hygienic, choose the **IP68-rated Marsden PT-450 Pallet Truck Scale**. This professional, built-to-last industrial weigher is easy to use, robust and boasts high grade stainless steel construction.

### A rugged scale for demanding environments

The PT-450 is an **IP68 rated scale**. This is the **highest waterproof rating Marsden supply**, and it means the PT-450 is suitable for **almost any environment** that's damp, wet, and humid. It also means the scale can be **washed down regularly** to keep it hygienic.

Stainless steel construction also gives the PT-450 a much more premium look and feel than standard pallet truck scales.

Plus, like all pallet truck scales, the PT-450 **makes weighing more convenient**, because goods can be moved and weighed at the same time.

### Easy access functions

The PT-450 uses Marsden's brand new IP68 indicator, the I-400SS. Just like the standard I-400 indicator, **simple checkweighing functions** are easily accessible via seven buttons.

**Tare, Hold, Gross and Zero**, as well as switching the **large, clear LCD weight reading** from **kg to lb**, are all one button press away.

## A rechargeable battery for extra flexibility

Of course, the PT-450 is powered by a **rechargeable battery**. This provides **40 hours of continuous use**.

The mains lead for charging the scale is safely housed in a **watertight compartment** on the front of the scale. Just unscrew the cover and pull out the lead to charge the scale.

## Key features

IP68 stainless steel protection

Rechargeable battery

Mains lead housed in watertight compartment

Accumulation mode

Hold/Tare/Zero/Gross

Large 32mm LCD display

Unit switchable

Robust stainless steel casing

Auto power off/screensaver

## Off the shelf or bespoke spec

The PT-450 has standard length forks, and a standard capacity of 2000kg. However, get in touch and we can build a waterproof pallet truck scale **bespoke to your needs**.

We can offer smaller capacities and higher accuracies, as well as custom made fork lengths.

## Specification
