Marsden V-100: Our best-selling veterinary scale, for animals up to 100kg

The **V-100** is a heavy-duty veterinary weighing scale – suitable for a wide range of animals with a its **100kg capacity**.

For medium to large pets

The Marsden V-100 is Marsden's best-selling veterinary scale. And there's good reason. It's designed for a wide range of animal sizes, with a capacity large enough to accommodate the heaviest of dogs.

The **large LCD display** clearly **shows the weight reading to the nearest 50g**, ensuring that the animals are always measured to a high degree of accuracy.

Plus, a specially-designed surface gives pets greater confidence when stepping onto the scale.

Take it anywhere you need

The scale is powered by **2 x AAA batteries**; therefore, it can be used absolutely anywhere regardless of where the nearest plug socket is.

Easy to use functions

The functions on the V-100 are simply laid out, with just three buttons on the front of the scale.

The V-100 has a **Tare function** and **Hold function**. The Hold button stabilises the weight reading on the screen, regardless of the animal's movement. Tare lets you remove unwanted weight from the reading, like a blanket. The scale is **unit switchable for weighing in kg or lb**.

Key features

- Hard-wearing non-slip surface
- 2x AAA batteries
- Weighs in kg or lb
